DEEPAK PHENOLICS LIMITED
(Formerly known as Deepak Clean Tech Limited)

Notes to Financial Statements for the Year ended 31st March, 2016

Company overview

Deepak Phenolics Limited (Formerly known as Deepak Clean Tech Limited) is a 100% Subsidiary of Deepak Nitrite Limited (along with nominees). It is formed for manufacturing of phenol & acetone as their main products. Deepak Phenolics Limited is in the process of setting up a manufacturing facility at GIDC Dahej.

1. SIGNIFICANT ACCOUNTING POLICIES

Accounting Convention

The accompanying financial statements have been prepared under the historical cost convention on accrual basis, in accordance with Generally Accepted Accounting Principles in India. The Company has prepared these Financial Statements to comply in all material respects with the Accounting Standards notified under section 133 of Companies Act 2013 Read with rule 7 with Companies Rules, 2014. The accounting policies adopted in the preparation of financial statements are consistent with those of previous year.

a) Use of Estimates

The preparation of financial statements in conformity with Generally Accepted Accounting Principles requires management to make estimates and assumptions that affect the reported balances of assets and liabilities as of the date of financial statements and reported amounts of income and expenses during the period. Management believes that the estimates used in the preparation of financial statements are prudent and reasonable. Actual results could differ from those estimates. Difference between the actual results and estimates are recognized in the year in which the results are known/materialised.

b) Presentation and Disclosure of Financial Statements

Assets and Liabilities are classified as Current or Non-Current as per the provisions of the Schedule III notified under the Companies Act, 2013, and Company's normal operating cycle. Based on the nature of business and its activities, the Company has ascertained its operating cycle as twelve months for the purpose of Current & Non-Current classification of Assets & Liabilities.

c) Fixed Assets

(i) Tangible Fixed Assets and Depreciation

Fixed Assets are stated at their original cost of acquisition, less accumulated depreciation and impairment losses. Cost includes all incidental expenses related to acquisition and installation expenses.

Depreciation is provided, pro rata for the period of use, by the Straight Line Method (SLM) at the life prescribed in Schedule II of the Companies Act, 2013 .

(ii) Intangible Fixed Assets

An Intangible Asset is recognized, where it is probable that the future economic benefits attributable to the Asset will flow to the enterprise and where its cost can be reliably measured. Intangible Assets are stated at their original cost of acquisition, less accumulated depreciation and impairment losses. Cost includes all incidental expenses related to acquisition and installation and other pre-operative expenses.

d) Inventories

(i) Raw Materials, Packing Materials and Stores & Spares are valued at cost determined on monthly-moving weighted average basis and are net of Cenvat and VAT.

(ii) Finished Goods and Stock-in-process are valued at cost of purchase of raw materials including the cost incurred in the normal course of business in bringing the inventories up to the present condition or at the net realizable value, whichever is lower.

- e) **Revenue recognition**
- (i) Revenue from sales is recognized when the significant risks and rewards associated with ownership of goods are transferred to the buyers and no significant uncertainty exists as to the amount of consideration derived from the sales. Sales is recorded net of trade discounts, rebates, sales taxes, VAT and excise duties (recovery of which realisation is shown separately).
 - (ii) Revenue from rendering of services relating to conversion/processing activity is recognized when the converted/processed goods are ready for delivery.
 - (iii) Revenue in respect of dividend received, export incentive, overdue interest, insurance claim, etc. is recognized to the extent that the Company is reasonably certain of its ultimate realization.
- f) **Employee Retirement Benefits**
- (i) **Defined Contribution Plans**
Company's contributions paid/payable during the year to Provident Fund, are recognized in the Statement of Profit and Loss.
 - (ii) **Defined Benefit Plan**
Company's liabilities towards gratuity and leave encashment are determined on actuarial basis using the projected unit credit method, which consider each period of service as giving rise to an additional unit of benefit and measure each unit separately to build up the final obligation. Past services are recognized on straight-line basis over the average period until the amended benefits become vested. Actuarial gain and losses are recognized immediately in the Statement of Profit and Loss Account as income or expense. Obligation is measured at the present value of estimated future cash flow using a discount rate that is determined by reference to market yields at the Balance Sheet date on government bonds, where the currency and terms of the government bonds are consistent with the currency and estimated terms of the defined benefit obligation.
- g) **Investments**
Investments that are readily realizable and intended to be held for not more than twelve months are classified as current investments. All other investments are classified as long term. Current investments are carried at lower of cost and fair value determined on an individual investment basis. Long term investments are carried at cost. However, provision for diminution is made to recognize a decline, other than temporary in nature, in the carrying amount of such long term investments.
- h) **Foreign currency transactions**
- (i) Transactions in foreign currencies are recorded at the exchange rates prevailing on the date of the transaction. Foreign currency monetary assets and liabilities are translated at year end exchange rates. Exchange difference arising on settlement of transactions and translation of monetary items are recognized as income or expense in the year in which they arise.
 - (ii) The Company uses foreign exchange forward contracts and options to hedge its actual underlying exposures to reduce exchange risk and/or cost to the Company.
 - (iii) The difference between the forward rate and the exchange rate at the inception of the forward contract for underlying transactions is recognized as per the principles set out in (h) (i) above.
 - (iv) In respect of hedge contracts, for firm commitment or forecasted transactions, the attributable loss is accrued on periodic settlement and/or completion of contract and is recognized as per the principles set out in (h) (i) above.
- (i) **Preliminary Expenses**
Includes Preliminary Expenses written off equally in five years from current year
- j) **Income Tax**
Tax expense comprises of both current and deferred tax. Deferred tax assets and liabilities are recognized for future tax consequences attributable to the timing differences between taxable income and accounting income that are capable of reversal in one or more subsequent periods and are measured using tax rates enacted or substantively enacted as at the Balance Sheet date. Deferred Tax assets are not recognized unless, in the management judgment, there is virtual certainty that sufficient future taxable income will be available against which such deferred tax assets can be realized. The carrying amount of deferred tax is reviewed at each balance sheet date.

k) Earning per Share

The company reports basic and diluted Earning per Share (EPS) in accordance with the A S 20 on 'Earning per Share'. Basic earning per equity share is computed by dividing net income by the weighted average number of equity shares outstanding for the period. Diluted earning per equity share are computed by dividing net profit or loss for the period by the weighted average number of equity shares adjusted for the effects of all dilutive potential equity shares.

l) Segment Reporting - Basis of Information

There are no reportable segments as defined by Accounting Standard 17 on "Segment Reporting".

m) Borrowing costs

Borrowing costs directly attributable to the acquisition/construction of qualifying assets as also the borrowing costs of funds borrowed generally and used for the purpose of acquisition/construction of such assets is capitalized up to the date the assets are ready for use. Other borrowing costs are recognized as an expense in the period in which they are incurred.

n) Cash Flow statement

The Cash Flow Statement is prepared by the indirect method set out in A S 3 'Cash Flow Statements', whereby the profit before tax is adjusted for the effects of transactions of a non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The Cash flows from regular revenue generating, investing and financing activities of the Company are segregated.

o) Provisions and Contingent Liabilities

Provisions are recognized in the accounts in respect of present probable obligations, the amount for which can be reliably estimated.

Contingent liabilities are disclosed in respect of possible obligations that arise from past events but their existence is confirmed by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company.
